Introduction to iOS APP
DEVELOPMENT
Lecture 3

MO

OBJECTIVE-C

- **Background**

OBJECTIVE-C

- **File Types: .h .m**
- **Basic Types**
- **Selectors**

OBJECTIVE-C

```
//Exercise
//Write a function that takes two NSString arguments
//Convert the string arguments to floats
//Multiply the floats
//Return the result as a string

//var ret:String = multiplyNumbersAsStrings("4.5", secondNumber: "6.7")
```

OBJECTIVE-C

- **Conditional Logic (if, switch)**
- **Looping (for, while)**

OBJECTIVE-C

- **Complex data types (Arrays, Dictionaries)**

OBJECTIVE-C

- **Classes**
- **Properties**

OBJECTIVE-C

- **Protocols**

OBJECTIVE-C

- **Categories**

MISCELLANEOUS

- **How to get user input**
- **Final Project**
