MO

SWIFT TUPLES

- **Tuples are used to club multiple values into one.**

EMBEDDED FUNCTIONS

- **Functions can be inserted in other Functions.**

FUNCTIONS PASSED AS PARAMETERS

- **Functions can be passed as parameters.**

SWIFT ENUMS

- **Enums are a convenient way to replace numbers by well known values.**

SWIFT PROTOCOLS

- **Protocols define their respective interfaces.**

SWIFT EXTENSIONS

- **Extensions can be used to add new functionality to classes whose source code we do not have.**
